Who Is Michael Ovitz? Michael Ovitz 2018-09-25 If you're going to read one book about Hollywood, this is the one. As the co-founder of Creative Artists Agency, Michael Ovitz earned a reputation for ruthless negotiation, brilliant strategy, and fierce loyalty to his clients. He reinvented the role of the agent and helped shape the careers of hundreds of A-list entertainers, directors, and writers, including Steven Spielberg, Martin Scorsese, Meryl Streep, Sean Connery, Bill Murray, Robin Williams, and David Letterman. But this personal history is much more than a fascinating account of celebrity friendships and bare-knuckled dealmaking. It's also an underdog's story: How did a middle-class kid from Encino work his way into the William Morris mailroom, and eventually become the most powerful person in Hollywood? How did an agent (even a superagent) also become a power in producing, advertising, mergers & acquisitions, and modern art? And what were the personal consequences of all those deals? After decades of near-silence in the face of controversy, Ovitz is finally telling his whole story, with remarkable candor and insight.

How To Be Right James Delingpole 2012-02-16 As a journalist for the Sunday

Telegraph and The Spectator, James Delingpole has expressed his thoughts - articulately and amusingly - on everything from politics to popular music, from school sports days to spliffs. In this A-Z of brief essays he turns his lively mind to modern society gone mad. Can't understand what's wrong with much-loved feet and inches? Don't believe the global-warming hype? Wondering whatever happened to good, old-fashioned universities? Pouring scorn on the state of Britain after ten years under Brown and Blair, HOW TO BE RIGHT couldn't have come along at a more appropriate time. Prepare to foam and splutter, and to be seriously entertained.

An Anthropologist on Mars Oliver Sacks 2012-11-14 To these seven narratives of neurological disorder Dr. Sacks brings the same humanity, poetic observation, and infectious sense of wonder that are apparent in his bestsellers Awakenings and The Man Who Mistook His Wife for a Hat. These men, women, and one extraordinary child emerge as brilliantly adaptive personalities, whose conditions have not so much debilitated them as ushered them into another reality.

Run, Rose, Run James Patterson 2022-03-07 THE #1 NEW YORK TIMES BESTSELLER! From America's most beloved superstar and its greatest storyteller—a thriller about a young singer-songwriter on the rise and on the run, and determined to do whatever it takes to survive. Every song tells a story. She's a star on the rise, singing about the hard life behind her. She's also on the run. Find a future, lose a past. Nashville is where she's come to claim her destiny. It's also where the darkness she's fled might find her. And destroy her. Run, Rose, Run is a novel glittering with danger and desire—a story that only America's #1 beloved entertainer and its #1 bestselling author could have created.

The Death of Rhythm and Blues Nelson George 2003-08-15 From Nelson George, supervising producer and writer of the hit Netflix series, "The Get Down," this passionate and provocative book tells the complete story of black music in the last fifty years, and in doing so outlines the perilous position of black culture within white American society. In a fast-paced narrative, Nelson George's book chronicles the rise and fall of "race music" and its transformation into the R&B that eventually dominated the airwaves only to find itself diluted and submerged as crossover music.

Think and Grow Through Art and Music Randey Faulkner 2020-09-30 Think and Grow Through Art & Music is written for anyone who aspires to be or become a professional in the field of art and music. The Author's extensive experience has

demonstrated that a person who possesses the burning desire to become a professional in the field of art and music, and not only reads, yet also applied these principles, will multiply his/her greater advantage of becoming successful by ten times or more. Just as Napoleon Hill made millionaires out of scores of men and women in the past, as well as today, his principles when properly applied and followed by action, will work with any application. The author: • Includes his Twenty plus years of face-to-face interviews with some of the greatest artists and musicians who have ever lived. He also includes email and telephone conversations from those too busy to sit down for a one on one. • Adds his countless hours of research delving into the past of those who have gone before, so he might add their input and suggestions. • Integrates Napoleon Hills' lifetime of knowledge gained by over 500 interviews with some of Americas renowned leaders used to create his science of personal success and philosophy outlined in his classic Think & Grow Rich. • Teamed up with the Napoleon Hill Foundation in Wise, Virginia, who has carried on Napoleon's work since his passing in 1970. Together they have clearly written a modern day classic, a must read for any & all. Over 20 years of interviews and research, yielding inspiration, advice and motivation from musicians and artists too numerous to list, including: Chet Atkins, Les Paul, B.B. King, Stevie Wonder, Jerry Garcia, Chet Baker, Martina McBride, Thelonious Monk, Leonard Cohen, Sheryl Crow, Pharrell Williams, Andrea Bocelli, Bruno Mars, Mick Jones, Beyoncé, Willie Nelson, Eric Clapton, Eminem, Madonna, John Mellencamp, Enrico Caruso, Taylor Swift, Lyle Lovett, Diana Ross, Naomi Judd, Paul McCartney, Aretha Franklin, Carole King, Mary J. Blige, Jimmy Buffet, Chaka Khan, Quincy Jones, Yo Yo Ma, Itzhak Perlman, Ringo Starr and more. Faulkner firmly believes that the only limitations the reader has, are those he or she set up in their own minds. By following these principles and taking action, the reader will remain persistent, not give up, and have doors open that otherwise they would never be aware of.

Major Labels Kelefa Sanneh 2021-10-05 One of Oprah Daily's 20 Favorite Books of 2021 • Selected as one of Pitchfork's Best Music Books of the Year "One of the best books of its kind in decades." –The Wall Street Journal An epic achievement and a huge delight, the entire history of popular music over the past fifty years refracted through the big genres that have defined and dominated it: rock, R&B, country, punk, hip-hop, dance music, and pop Kelefa Sanneh, one of the essential voices of our time on music and culture, has made a deep study of how popular music unites and divides us, charting the way genres become communities. In *Major Labels*, Sanneh distills a career's worth of knowledge about music and musicians into a brilliant and omnivorous reckoning with popular music—as an art form (actually, a bunch of art forms), as a cultural and economic force, and as a tool that we use to build our identities. He explains the history of slow jams, the genius of Shania Twain, and why rappers are always getting in trouble. Sanneh shows how these genres have been defined by the tension between mainstream and outsider, between authenticity and phoniness, between good and bad, right and wrong. Throughout, race is a powerful touchstone: just as there have always been Black audiences and white audiences, with more or less overlap depending on the moment, there has been Black music and white music, constantly mixing and separating. Sanneh debunks cherished myths, reappraises beloved heroes, and upends familiar ideas of musical greatness, arguing that sometimes, the best popular music isn't transcendent. Songs express our grudges as well as our hopes, and they are motivated by greed as well as idealism; music is a powerful tool for human connection, but also for human antagonism. This is a book about the music everyone

loves, the music everyone hates, and the decades-long argument over which is which. The opposite of a modest proposal, Major Labels pays in full. *Augmented Reality, Virtual Reality, and Computer Graphics* Lucio Tommaso De Paolis 2019-07-27 The 2-volume set LNCS 11613 and 11614 constitutes the refereed proceedings of the 6th International Conference on Augmented Reality, Virtual Reality, and Computer Graphics, AVR 2019, held in Santa Maria al Bagno, Italy, in June 2019. The 32 full papers and 35 short papers presented were carefully reviewed and selected from numerous submissions. The papers discuss key issues, approaches, ideas, open problems, innovative applications and trends in virtual and augmented reality, 3D visualization and computer graphics in the areas of medicine, cultural heritage, arts, education, entertainment, military and industrial applications. They are organized in the following topical sections: virtual reality; medicine; augmented reality; cultural heritage; education; and industry.

Climatic Disorder Bruno H Mars 2021-01-18 Global catastrophic risks present interdisciplinary problems, so solutions must draw on expertise from several domains in order to provide adequate understanding and options to reduce and mitigate risks. While we may think of climate change as a recent issue, scientists have discussed and debated climate for well over a century. Only recently has it become the politically baffling and contentious topic we know today, inciting panic in some people and incredulity in others. When both sides are emotionally charged, how can anyone discern what is true? In *Weathering Climatic disorder*, climatologist Bruno H Mars steps outside of the rancor and noise, offering a comprehensive look not only at Earth's current climate but also at the planet's captivating climate history. His measured perspective and realistic response are grounded in a wealth of evidence from multiple scientific disciplines.

The Fabulous Sylvester Joshua Gamson 2013-07-30 A journey back through the music, madness, and unparalleled freedom of an era of change-the '70s-as told through the life of ultra-fabulous superstar Sylvester Imagine a pied piper singing in a dazzling falsetto, wearing glittering sequins, and leading the young people of the nation to San Francisco and on to liberation where nothing was straight-laced or old-fashioned. And everyone, finally, was welcome-to come as themselves. This is not a fairy tale. This was real, mighty real, and disco sensation Sylvester was the piper. Joshua Gamson-a Yale-trained pop culture expert-uses him, a boy who would be fabulous, to lead us through the story of the '70s when a new era of change liberated us from conformity and boredom. Gamson captures the exuberant life, feeling, energy, and fun of a generation's wonderful, magical waking up-from

the parties to the dancing and music. The story begins with a little black boy who started with nothing but a really big voice. We follow him from the Gospel chorus to the glory days in the Castro where a generation shook off its shame as Sylvester sang and began his rise as part of a now-notorious theatrical troupe called the Cockettes. Celebrity, sociology, and music history mingle and merge around this endlessly entertaining story of a singer who embodied the freedom, spirit, and flamboyance of a golden moment in American culture.

Entertainment Science Thorsten Hennig-Thurau 2018-08-01 The entertainment industry has long been dominated by legendary screenwriter William Goldman's "Nobody-Knows-Anything" mantra, which argues that success is the result of managerial intuition and instinct. This book builds the case that combining such intuition with data analytics and rigorous scholarly knowledge provides a source of sustainable competitive advantage – the same recipe for success that is behind the rise of firms such as Netflix and Spotify, but has also fueled Disney's recent success. Unlocking a large repertoire of scientific studies by business scholars and entertainment economists, the authors identify essential factors, mechanisms, and methods that help a new entertainment product succeed. The book thus offers a timely alternative to "Nobody-Knows" decision-making in the digital era: while coupling a good idea with smart data analytics and entertainment theory cannot guarantee a hit, it systematically and substantially increases the probability of success in the entertainment industry. *Entertainment Science* is poised to inspire fresh new thinking among managers, students of entertainment, and scholars alike. Thorsten Hennig-Thurau and Mark B. Houston – two of our finest scholars in the area of entertainment marketing – have produced a definitive research-based compendium that cuts across various branches of the arts to explain the phenomena that provide consumption experiences to capture the hearts and minds of audiences. Morris B. Holbrook, W. T. Dillard Professor Emeritus of Marketing, Columbia University *Entertainment Science* is a must-read for everyone working in the entertainment industry today, where the impact of digital and the use of big data can't be ignored anymore. Hennig-Thurau and Houston are the scientific frontrunners of knowledge that the industry urgently needs. Michael Kölmel, media entrepreneur and Honorary Professor of Media Economics at University of Leipzig *Entertainment Science's* winning combination of creativity, theory, and data analytics offers managers in the creative industries and beyond a novel, compelling, and comprehensive approach to support their decision-making. This ground-breaking book marks the dawn of a new Golden Age of fruitful conversation between entertainment scholars, managers, and artists. Allègre Hadida, Associate Professor in Strategy, University of Cambridge
