## **Why Write When You Can Tag**

**Graffiti Diplomacy**  
2017-05 This book picks up where our first book "Learn To Draw a Graffiti Masterpiece" left off. It approaches graffiti tagging as an art form, similar to Calligraphy. It is not a book

about illegal tagging by any means. We love graffiti in all it's unique forms and seek to share that passion with everyone. If you want to learn how to draw tag letters with clarity and without confusion this is the book for you. This book demonstrates beginner's

tag styles and advanced handstyles in an easy-to-follow format with hundreds of step-by-step illustrations and supporting text. Great for both students and teachers, this book will teach you how to turn basic hand lettering into a professional graffiti tag! Have your tag printed on coffee mugs, note cards or t-shirts. Now you can design your own graffiti tags from start to finish. Why write when you can tag! Second Edition.

**Graffiti School** Chris Ganter 2013 Describes how to create graffiti, covering such topics as designing letters, using effects, and handling spray cans, and includes a teacher's manual that offers advice on planning lessons on the art's theories and practices.

**Graffiti Japan** Remo Camerota 2011 Japan has always been a breeding ground for innovative approaches to Western traditions, such as cinema and baseball. Another example includes graffiti, which covers the buildings and walls of Japan's largest cities, as well as the more rural areas. While

graffiti in Japan shares many of the same characteristics with examples from other parts of the world, distinct cultural aspects of Japan, from Kanji to popular anime characters, set Japanese graffiti apart. Tokyo-based photographer Remo Camerota has captured these culturally unique aspects of Japanese graffiti, and in doing so has befriended some of the country's major graffiti artists. Colorful spreads and intimate interviews provide a detailed examination of Japanese graffiti.

You've just been laid off from the teaching position in which you have so passionately invested your time, talents and heart for years! What now? Hundreds of thousands of American teachers have been laid off in the last four years as a result of the long term recession that continues to challenge the country's economy. In this book, one of those teachers shares what that experience was like for her, how she coped

with unexpected unemployment, and what she learned about finding her way as a teacher without a classroom. Full of not only truthful reflection and encouragement for teachers facing similar situations, this book also offers practical tips for how to handle lay-off and unemployment, and how to prepare yourself as an education professional to expand your career outside your classroom. These are uncertain times, but teachers don't need to feel uncertain about their careers. There IS life as an education professional after lay-off!

[Graffiti for Beginners](#) Mega DNS 2021-04 Learn how to draw graffiti letters! Graffiti for Beginners is an easy-to-follow introduction that presents you with the basics behind graffiti lettering. The two funky yet classic graffiti alphabets created by experienced graffiti artist Mega gives you the opportunity to learn a basic graffiti style, as well as a more advanced wild style. Each of the alphabet's 26 letters has its

own spread where the building blocks of the letter are carefully displayed next to the specified space for you to practice, along with illustrations of how the letters can be used in different words and names. In addition to the letters, you will find examples of characteristic elements used in graffiti such as 3D or shades to add depth to the letters, or arrows, stars, bubbles, highlights and shines to make the piece stand out. Graffiti for Beginners is the fundamental guide for you to learn how to master the alphabet with style and finesse, letter by letter, until you are able to put together complicated words and messages, adding the coloring of your own choice. Learning graffiti has never been easier or more fun! Graffiti for Beginners suits all ages and is a great tool for advertisers, home stylers, school teachers, kids and creative adults alike. Your teacher, Mega DNS, has over 35 years experience in writing graffiti. His letter style is best described as legible old New

York style mixed with European style and most importantly: the letters must have movement and style.

**Explaining Electricity** Jim (James William) Ross 2004  
Electricity can be easy to understand! A fruitful model of simple electric circuits is developed and applied in these pages. The approach is highly pictorial: electric potential (Volts) and electric current (Amps) are represented by simple diagrams. The student is expected to use these diagrams as the principal mode of analyzing circuits. When algebra and equations are introduced, the student already has an understanding of V, I, R and P from the diagrams. As in all of the Ross Lattner IntuitivScience series, diagrams are an important mode of expression. Parents and teachers, you get one half of the book! We provide solid pedagogical supports, recipes, and methods of presentation. The unit itself is further subdivided into four sections, approximating four weeks of 70-minute classes. 1. Static

electricity and the electrical structure of matter 2. Characteristics of electric current, and development of a model of current, potential, resistance and power 3. Mathematical treatment of series and parallel circuits 4. Projects that are either an application of the model or an extensions of the model. At the end of sections 1 - 3 is a thorough quiz, in the same pictorial style. Because this unit involves fundamental forces and concepts, we recommend that it be placed first in the series of the four Ross Lattner Grade Nine Academic IntuitivScience books. In particular, this book should be placed before chemistry.

### **Post-Socialist Political Graffiti in the Balkans and Central Europe** Mitja

Velikonja 2019-11-20 This theoretically and empirically grounded book uses case studies of political graffiti in the post-socialist Balkans and Central Europe to explore the use of graffiti as a subversive political media. Despite the increasing global digitisation, graffiti remains widespread and popular, providing with a few words or images a vivid visual indication of cultural conditions, social dynamics and power structures in a society, and provoking a variety of reactions. Using qualitative and quantitative methods, as well as detailed interdisciplinary analyses of "patriotic," extreme-right, soccer-fan, nostalgic, and chauvinist graffiti and street art, it looks at why and by whom graffiti is used as political media and to/against whom it is directed. The book theorises discussions of political graffiti and street art

to show different methodological approaches from four perspectives: context, author, the work itself, and audience. It will be of interest to the growing body of literature focussing on (sub)cultural studies in the contemporary Balkans, transitology, visual cultural studies, art theory, anthropology, sociology, and studies of radical politics.

*Graffiti Art Styles* Lisa Gottlieb

2014-01-10 This book presents

a classification system for

graffiti art styles that reflects

the expertise of graffiti writers and the work of art historian Erwin Panofsky. Based on Panofsky's theories of iconographical analysis, the classification model is designed to identify the style of a graffiti art piece through its visual characteristics. Tested by image cataloguers in archives, libraries, and museums, the system assists information professionals in identifying the iconic styles of graffiti art pieces. It also demonstrates the power of Panofsky's theories to provide access to non-representational or abstract art images. The result is a new paradigm for Panofsky's theories that challenges the assumptions of traditional models. This innovative book is a valuable resource for anyone who wants to learn more about graffiti art and for information professionals concerned with both the practical and intellectual issues surrounding image access.

Author Greg Ahlijian has been a volunteer at the Jasper Mountain facility since 2008, teaching and mentoring children from ages 8-14 about character development, nature, and poetry. Inspired by the children, he has written two books that contain life lessons: *The Large Rock and the Little Yew* teaches the virtues of courage, perseverance, self-respect, and hope; and *An Elephant Would Be Wonderful*, a book about self-discovery. He says, "To be able to provide a smile on a child's face, a bit of joy or inspiration, is what my book projects are all about!"

[When Schools Close](#) Marisa De La Torre 2009 Few decisions by a school district are more controversial than the decision to close a school. School staff,

students and their families, and even the local community all bear a substantial burden once the decision is made to close a school. Since 2001, Chicago Public Schools (cps) has closed 44 schools for reasons of poor academic performance or underutilization. Despite the attention that school closings have received in the past few years, very little is known about how displaced students fare after their schools are closed. This report examines the impact that closing schools had on the students who attended these schools. The authors focus on regular elementary schools that were closed between 2001 and 2006 for underutilization or low performance and ask whether students who were forced to leave these schools and enroll elsewhere experienced any positive or negative effects from this type of school move. They look at a number of student outcomes, including reading and math achievement, special education referrals, retentions, summer school attendance, mobility, and high

school performance. They also examine characteristics of the receiving schools and ask whether differences in these schools had any impact on the learning experiences of students who transferred into them. The authors report six major findings: (1) Most students who transferred out of closing schools reenrolled in schools that were academically weak; (2) The largest negative impact of school closings on students' reading and math achievement occurred in the year before the schools were closed; (3) Once students left schools slated for closing, on average the additional effects on their learning were neither negative nor positive; (4) Although the school closing policy had only a small overall effect on student test scores, it did affect summer school enrollment and subsequent school mobility; (5) When displaced students reached high school, their on-track rates to graduate were no different than the rates of students who attended schools similar to those that closed;

and (6) The learning outcomes of displaced students depended on the characteristics of receiving schools. Overall, they found few effects, either positive or negative, of school closings on the achievement of displaced students. Appended are: (1) School Closings and New Openings; and (2) Data, Analytic Methods, and Variables Used. (Contains 5 tables, 12 figures and 53 endnotes.)[For the (What Works Clearinghouse (wwc) Quick Review of this report, see ed510790].]

**Street Fonts** Claudia Walde 2018-01-18 Classic graffiti lettering and experimental typographical forms lie at the heart of street culture and have long inspired designers in many different fields. But graffiti artists, who tend to paint the same letters of their tag again and again, rarely design complete alphabets. Claudia Walde has spent over two years collecting alphabets by 154 artists from 30 countries with a view to showing the many different styles and approaches to

lettering within the graffiti and street art cultures. All of the artists have roots in graffiti. Some are world renowned such as 123 Klan (Canada), Faith47 (South Africa) and Hera (Germany); others are lesser known or only now starting to emerge. Each artist received the same brief: to design all 26 letters of the Latin alphabet within the limits of a single page of the book. How they approached this task and selected the media with which to express their ideas was entirely up to them. The results are a fascinating insight into the creative process.

**Flip the Script** Christian P. Acker 2013 Distinctive hand

style lettering is an essential skill for artists and designers. Deftly executed hand crafted letter forms are a nearly forgotten art in an age of endless free fonts. Graffiti is one of the last reservoirs of highly refined, well practiced penmanship. The most reviled and persecuted form of Graffiti, the Tag, is seldom appreciated for the raw beauty of its skeletal letter forms. Most tags are removed immediately, and thus the casual viewer seldom has a chance to discern the difference between entry level and advanced hand styles. Within the pages of *Flip the Script*, author Christian Acker has systematically analyzed the best graffiti hand styles, contextualizing the work of graffiti writers from around the United States. Acker presents the various lettering samples in a clean organized format, giving the material a proper, formal treatment evoking classic typography books. *I Am Safe. I Am Good. ### *The Applicants* Ari Morgan

2014-07-02 Groomed for a place at a Big Name School since their obsessed, status-conscious helicopter parents

passed out cigars at the Stockstill General Hospital Neonatal Unit, the privileged students of Pembrocton College Preparatory are ratcheting up the stakes in the race to get into the nation's most prestigious colleges. The PCP juniors are gloating, jubilant at the rumor that the valedictorian presumptive has received a B on her report card, a grade that will relegate her to in-state hell. Her heir apparent, a three-generation Yale legacy, is the sole mourner at the demise of her future—if only because her thoughtless academic lapse is going to derail his plans to attend MIT. Across town, in the graffiti-covered halls of Stockstill High School, the students slink to class, praying that they arrive without a knife wound—and dream of ivy-covered walls. And with the help of a take-no-prisoners principal and an enterprising parent, the students at SHS dare to encroach shamelessly on territory normally reserved for their wealthy private school rivals. Join the fray as a

memorable cast of characters engages in the latest rage in extracurricular activities: college admissions as a blood sport. Laugh out loud funny, The Applicants lampoons the heights we scale—and the depths to which we sink—to get into the “right” college. LA Graffiti Black Book David Brafman 2021-04-13 This collection of unique works by 150 Los Angeles graffiti and tattoo artists represents an unprecedented collaboration across the city’s diverse artistic landscape. Many graffiti artists carry sketchbooks, called black books, and they ask crew members and others whose work they admire to inscribe their books with lettering or drawings. A few years ago, the Getty Research Institute invited artists, including Angst, Axis, Big Sleeps, Chaz, Cre8, Defer, EyeOne, Fishe, Heaven, Hyde, Look, ManOne, and Prime, to consider the idea of a citywide graffiti black book. During visits to the Getty Center, the artists viewed rare books related to calligraphy and letterforms, including

works by Albrecht Dürer and Leonardo da Vinci. The artists instantly recognized the connections to their own practices and were particularly drawn to a liber amicorum (book of friends), a form of autograph book popular in the seventeenth century. Passed from hand to hand, it was filled with signatures, poetry, and coats of arms, like a black book from another era. Inspired by this meeting of minds across centuries, these artists became both creators and curators, crafting their own pages and inviting others to contribute. Eventually 150 Los Angeles artists decorated 143 individual pages. These were bound together into an exquisite artists' book that became known as the Getty Graffiti Black Book. This publication reproduces each page from the original artists' book and recounts the story of an unprecedented collaboration across the diverse artistic landscape of Los Angeles.

shock and sing. To push the boundaries of art and communicate in a way that letter structure alone cannot. By example, you'll learn how to connect your own color choices in a meaningful way, making your art both deeply personal and highly effective. Check out Scape's improvisational creative process as he creates 12 works (his "personal cave paintings") on concrete and canvas, step by step, from concept to completion. Instruction and exercises help you choose the colors that work for you and your artwork, find your distinct voice, and keep it real. Dig into Scape's bag of tricks for creating a site-specific piece, mixing conventional can techniques with traditional acrylic painting skills, exploring transparent letters and letter abstraction, working with monochromatic color schemes, turning letters inside out, and lots more. Unopened Books Jermaine D. Gassaway 2017-05-27 The unfathomable rate of Black males in education should result in a national call to action. Across the country Black males represent only 2% of the teaching workforce. By the year 2024, minority students will be the majority, yet our current education workforce does not reflect this growing trend in what has been called "The Browning of America." Why is it acceptable that a student can matriculate from Kindergarten through twelfth grade and not have one Black male as his or her teacher? Why has it been a challenge to recruit and in many instances retain Black males in the classroom? Unopened Books explains what is referenced in the book as the

Five Black Male Deterrents in Education. Through the personal narrative of Jermaine D. Gassaway, a native Washingtonian, educator, and school leader; coupled with practical solutions, Unopened Books provides insight to multiply the 2%. It is intended to not only be a provocative conversation starter but an actionable approach to increase the number of Black men in the classroom.

Take Off Your Hat and Spit Out Your Gum Melinda Ehrlich

2012-06-01 From the moment she stepped into a classroom as a teacher, Melinda Ehrlich was destined to write this book. With her trusty notepad at her side, she documented her experiences - from her students' zany antics to the bureaucratic directives that were issued. Her journals, filled with stories and anecdotes, have shaped this extraordinary memoir, painting

a vivid picture of her life as a New York City English teacher. Ehrlich's positive approach and fiery spirit enabled her to thrive within the largest public school system in America. You will meet the vocational high school girls who couldn't open their notebooks until their hair and nails dried, the wannabe mobster who greeted Ms. Ehrlich with "Hi ya doll!" in the hallways, and the forger who insisted he and his mother shared identical signatures. But it wasn't all sunshine and daisies. She had her share of intense encounters with troubled students that tested the boundaries not only of education but of human perseverance and understanding. All of these and more make up the students she "couldn't erase." A lightning bolt of inspiration, Take Off Your Hat and Spit Out Your Gum is a must-read for the over three million teachers in the U.S. today. This is the remarkably entertaining story of a teacher who rode the rollercoaster for over 30 years and exited clicking her heels,

still believing there's no place like school.
