Anabasis Xenophon 1962

Xenophon was born in the fifth
century b.c. near Athens. His
Anabasis, or “Up-Country
March,” an account of his life
as a Greek soldier, has endured
through the ages. A historical
and literary introduction, notes,
and a vocabulary make this text
invaluable to students.

Greek and Roman Education

Mark Joyal 2022-01-31 Modern

western education finds its

origins in the practices, systems
and schools of the ancient

Greeks and Romans. It is in the
field of education, in fact, that

classical antiquity has exerted

one of its clearest influences on
the modern world. Yet the story

of Greek and Roman education,
extending from the eighth

century B.C. into the Middle
Ages, is familiar in its details

only to relatively few specialists.

Containing nearly 300

translated texts and documents,

Greek and Roman Education: A
Sourcebook is the first book to

provide readers with a large,

diverse and representative sample of the primary evidence for ancient Greek and Roman education. A special feature of this Sourcebook is the inclusion not only of the fundamental texts for the study of the subject, but also unfamiliar sources that are of great interest but are not easily accessible, including inscriptions on stone and Greek papyri from Egypt. Introductions to each chapter and to each selection provide the guidance which readers need to set the historical periods, themes and topics into meaningful contexts. Fully illustrated and including extensive suggestions for further reading, together with an

index of passages explored, students will have no further need for any other sourcebook on Greek and Roman education.

Ethnicity and Identity in

Herodotus Thomas Figueira

2020-01-16 Herodotus is the

epochal authority who inaugurated the European and Western consciousness of collective identity, whether in an

awareness of other societies and of the nature of cultural variation itself or in the fashioning of Greek self-awareness – and necessarily that of later civilizations influenced by the ancient Greeks – which was perpetually in dialogue and tension with other ways of living in groups. In this book, 14 contributors explore ethnicity – the very self-understanding of belonging to a separate body of human beings – and how it evolves and consolidates (or ethnogenesis). This inquiry is focussed through the lens of Herodotus as our earliest master of ethnography, in this instance not only as the stylized portrayal of other

societies, but also as an exegesis on how ethnocultural differentiation may affect the lives, and even the very existence, of one’s own people. Ethnicity and Identity Herodotus is one facet of a project that intends to bring Portuguese and English-speaking scholars of antiquity into closer cooperation. It has united a cross-section of North American classicists with a distinguished cohort of Portuguese and Brazilian experts on Greek literature and history writing in English. Purity and Monotheism Walter
Houston 1993-01-01 The
distinction between clean and
unclean animals, probably
originating in tensions between
shepherds and farmers, is in
the biblical laws of Leviticus 11

and Deuteronomy 14
transformed into an important
theological principle. In this
wide-ranging and elegantly
written study, Houston argues
that the avoidance of 'unclean'
foods is a mark of the exclusive
devotion of Israel to one god. In
a concluding chapter, it is
suggested that the abolition of
the distinction in early
Christianity corresponds to the
universal horizon of the new
faith.
